

Problem: flammable,  
corrosive, hazardous,  
noxious graffiti removers.

Solution: **SoSafe** the world's  
safest graffiti removing  
chemicals.

## SOSAFE GRAFFITI REMOVERS

- Non-toxic
- Biodegradable
- Non-flammable
- Non-corrosive
- PH neutral
- Low odour
- Ready to use

Now featuring Surface Active Technology (see below), SoSafe Graffiti Removers are specialist designed to deliver the results you need with speed and safety. You can trust the SoSafe advantage.

Surface Active Technology (SAT) is a breakthrough in technology formulated to remove deep stains from most substrates that have previously been permanent. SAT will actively lift graffiti and shadows from the surface of the substrate like no other graffiti remover.

SoSafe Graffiti removing chemicals are used and recommended both in Australia and internationally by Road & Traffic Authorities, Public Transport, Education Departments, Councils and Local Governments. Turn over to see our range of specialist graffiti removing chemicals →

→ The **SoSafe Graffiti Remover** range consists of a series of three graffiti removers, each specifically formulated to suit a range of substrate and removal conditions. See the SoSafe advantage for yourself. Contact your local distributor for a demonstration!

#### SoSafe Yellow

Formulated for painted surfaces, suitable for use on traffic signs, bus interiors/ exteriors, plastics, colour bond and other painted surfaces. Will remove paint, marker pen, oil, grease, poster glue, bubble gum and crayon. Neutralised by water. Available in liquid form. Sold in 1L (10 pack), 5L (3 pack) or 25L

#### SoSafe Blue

Designed for concrete surfaces, suitable for marble, brick, block, stucco, stone and porous surfaces. Will remove paint, oil, grease, poster glue, bubble gum and crayon. Neutralised by water. Available in liquid and sprayable gel form. Sold in 1L (10 pack), 5L (3 pack) or 25L.

#### SoSafe Professional

Professional edition graffiti remover, designed specifically for professional use. Suitable for use by trained graffiti removal specialists with high pressure water equipment on concrete, marble, brick, block, stucco, stone and porous surfaces. Removes the deepest stains from the toughest of substrates. Sold in 1L (10 pack), 5L (3 pack) or 25L

#### Also Available

Shadow Chaser – Next generation shadow remover, specially formulated for stubborn graffiti stains that cannot be removed by conventional means.

Safety Shield - SoSafe Safety Shield is a semi-sacrificial surface graffiti protection, making it easy to remove graffiti and suitable for all surface types.
